Following the publication of the original article [1], the authors spotted error in Fig. 1C. The colony formation image of H1792 in control row was accidently placed the same image of H322. This is a mistake and has to be corrected. Now, the actual image of H1792 in control row is placed at H1792 spot in revised Fig. 1 (below). This correction does not change any conclusions made in the article. The authors apologize for this error and any confusion it may have caused.
